Artículo 35. La impugnación de la composición de un Registro Electoral, sea con base a que este incluya no electores o que excluya a electores, se hará en la oportunidad y forma que establece el Capítulo XIII de este Reglamento.

Interpretación dada por el Consejo Universitario a las Impugnaciones a los Registros Electorales

La actualización del Registro Electoral se paraliza dentro del lapso comprendido entre los treinta días anteriores y los treinta posteriores a la fecha de la elección a la que el registro correspondiente sirva de base.

Ahora bien, a pesar de esa paralización es posible modificar el registro publicado, sólo por efecto de las impugnaciones, las cuales, sin embargo, sólo permiten que se incluya a quienes tenían derecho a figurar para la fecha al cierre del Registro y se excluya a quienes no tenían derecho a figurar para ese momento y que aparecerían indebidamente en el Registro para el momento de la paralización.

Esta interpretación es la única que garantiza la pureza y confiabilidad del Registro Electoral y, por ende, la seguridad y transparencia del acto electoral.

Nota: Se recuerda que para que un elector pueda ejercer su derecho al voto y ser electo, debe aparecer en el registro electoral, en consecuencia, deben revisar el registro electoral publicado y realizar las impugnaciones correspondientes al registro electoral, a fin de introducir las solicitudes de excluir o incluir los electores que lo requieran.
